You're Invited!

We are pleased to announce that **Earth Science for Society (ESfs)** will be hosting its 9th annual geoscience exhibition at the Big Four Building, Stampede Park, Calgary, on March 17-19, 2019. We would like to invite you and your students to take part in this great event on Monday, March 18 or Tuesday, March 19, 2019.

ESfs is a popular event that showcases the importance and impact of Earth Science in our everyday lives. Presenters at the four themed pavilions, *Resources and You*, *Energy for Us*, *One Dynamic Earth*, and *Our Future!*, give dynamic geoscience-related demonstrations, and visitors are invited to engage in hands-on, interactive exhibits, which provide a unique learning experience.

The Earth Sciences have so much to offer everyone. Besides employment for geoscientists, environmental engineers, computer programmers, IT people and data managers, there are opportunities for surveyors, safety and rescue personnel, helicopter pilots, mechanics, engineers, sales and marketing people, personnel managers, and many more. Students can investigate all kinds of prospective careers.

Earth Science for Society supplements in-class studies for the grade 7 the Planet Earth unit and the grade 3 Rocks and Minerals unit. Participating schools and youth groups at all grade levels have told us that **ESfs** is a valuable science event for them. Every student will receive a Scavenger Hunt booklet to encourage interaction with all the exhibitors. We will offer two Scavenger Hunt booklets: one for older students (grade 7) and one for our younger visitors (grade 3). Teachers will be sent the questions and answers in advance. Geoscience guides will escort your students around the pavilions and help to answer any questions. The visit will start with a briefing and then a tour to the pavilions lasting approximately two hours.

You may register your school [HERE](#) starting Monday, October 1, 2018. For more information on the event, visit esfscanada.com and look for the "Thank you" booklet to see photographs and comments as well as a YouTube video from ESfs 2018.

We look forward to seeing you in 2019!

Sincerely,

The **Earth Science for Society** Committee,
Inspiring the next generation with Earth Science.
