Phone: (403) 262-0015

We are pleased to announce that **Earth Science for Society (ESfS)** will be hosting its 11th geoscience exhibition at MacEwan Hall, University of Calgary, on March 17-19, 2024. We would like to invite you and your students to come for a guided visit to this great event on Monday, March 18th or Tuesday, March 19th, 2024.

ESfS is a popular event showcasing the importance and impact of Earth Science in our everyday lives. Presenters at the four themed pavilions: *Resources and You*, *Energy for Us*, *One Dynamic Earth*, and *Our Future!* give dynamic geoscience-related demonstrations. Visitors are invited to engage in the hands-on, interactive exhibits, which provide a unique learning experience for them.

Earth Science for Society supplements your in-class Earth science studies. Every student will receive a Scavenger Hunt booklet to encourage interaction with the exhibitors. The Scavenger Hunt booklet will contain two sets of questions, one for older students (grades 5 and over) and one for our younger visitors (grades 4 and under). Teachers will be sent the questions and answers in advance. Geoscience guides will escort your students around the pavilions and help to answer any questions. The visit will start with a briefing and continue with a tour to the pavilions lasting approximately two hours. Homeschoolers will be put with a group and are welcome to stay longer after the official guided visit.

Registration opens on October 1st, 2023. This year we have one morning and one afternoon session each day. A single school may bring up to 150 students to one session. We have also had to raise the price of buses to \$175 per bus due to increased charges by the bus company. Please follow the link to register your group: esfscanada.com/school-groups.

For more information on the event, visit esfscanada.com.

We look forward to seeing you in March!

Sincerely,
Helen Isaac
Chair, Program Delivery,
