You're Invited!

We are pleased to announce that **Earth Science for Society (ESfS)** will be hosting its 11th geoscience exhibition at MacEwan Hall, University of Calgary, on March 17-19, 2024. We would like to invite you and your Youth Group to take part in this great event on Sunday afternoon, March 17th or the evening of Monday, March 18th.

ESfS is a popular event showcasing the importance and impact of Earth Science in our everyday lives and is free and open to the public. Presenters at the four themed pavilions: *Resources and You*, *Energy for Us*, *One Dynamic Earth*, and *Our Future!* give dynamic geoscience-related demonstrations. Visitors are invited to engage in hands-on, interactive exhibits, which provide a unique learning experience for them. There are also opportunities to explore many varied prospective careers.

Your group will have scheduled visits around the pavilions and, on Sunday only, attend the Geo-Theatre talks. Geoscience guides will be on hand to help answer any questions. Monday night's visit will start with a briefing and continue with a tour to the pavilions lasting approximately two hours. Sunday's visit includes Geo-Theatre talks so will be longer. Every visitor will receive a Scavenger Hunt booklet to encourage interaction with all the exhibitors. The Scavenger Hunt booklets will have two sets of questions, one for older children (grades 5 and over) and one for our younger visitors (grades 4 and under). Group leaders will be sent the questions and answers in advance. The grade 7 Scavenger Hunt booklet and programming of the event are aligned with the Girl Guide Alberta GeoScience Challenge badge, and Girl Guides who participate in the event will fulfill some of the requirements for this badge.

Registration opens on October 1st, 2023. Please follow the link to register your group:
esfscanada.com/school-groups.

For more information on the event, visit esfscanada.com.
We look forward to seeing you in March!

Sincerely,
Helen Isaac,
Chair, Program Delivery,
The Earth Science for Society Committee
Inspiring the next generation with Earth Science.
