We are pleased to announce that **Earth Science for Society (ESfS)** will be hosting its 13th geoscience exhibition at MacEwan Hall, University of Calgary, on March 15-17, 2026. We would like to invite you and your students to participate in this great event on Monday, March 16th or Tuesday, March 17th, 2026. We have one morning and one afternoon session each day and can accommodate about 250 students in each session. The sessions include 25 minutes in each of the four pavilions in the morning and 20 minutes in each pavilion in the afternoon.

ESfS is a popular event showcasing the importance and impact of Earth Science in our everyday lives. Presenters at the four themed pavilions: *Resources and You*, *Energy for Us*, *One Dynamic Earth*, and *Our Future!* give dynamic geoscience-related demonstrations. Visitors are encouraged to engage in the hands-on, interactive exhibits, which provide a unique learning experience for them. There are also opportunities to explore many prospective careers.

Earth Science for Society supplements your in-class Earth science studies. Every student will receive a printed Scavenger Hunt booklet to encourage interaction with the exhibitors. The Scavenger Hunt booklet will contain two sets of questions; one for older students (grades 5 and over) and one for our younger visitors (grades 4 and under). Teachers will be sent the questions and answers in advance. Geoscience guides will be stationed in the pavilions and help to answer any questions. The visit will start with a briefing and continue with a tour to the pavilions lasting approximately two hours. Homeschoolers will be put with a group and are welcome to stay longer after the official guided visit.

If you would like us to organize buses for you, your cost will be \$175 per bus.

Registration opens on October 1st, 2025.

Please follow the link to register your group: esfscanada.com/school-groups
