Welcome Message

Thank you for participating in **Earth Science for Society!**

The **ESfS** Exhibits Committee strives to ensure that you have a successful experience exhibiting. This manual will enable you to find the information and services that you need. Please contact us if you have questions or need something extra that is not included here. There is a lot of information, so we urge you to read from start to finish and familiarize yourself with this Exhibitor Kit. There are a few points that need to be noted. You will also receive an updated information package when you arrive on site.

Earth Science for Society (ESfS) is a free, three-day event that showcases the importance and impact of Earth Science in our everyday lives. Visitors will enjoy a wide variety of stimulating, interactive activities offered by you – our enthusiastic exhibitors!

Sunday afternoon and Monday evening are designated for youth groups and the public, with many families attending. We expect up to 500 visitors on Sunday afternoon and Monday evening. Fifteen youth groups, seven of which are new, have signed up for guided visits on Sunday afternoon and on Monday evening, bringing 359 young people and 65 leaders.

Also on Sunday March 15th, the Geo-Theatre will showcase two geoscience presentations. Dr. Emily Bamforth will be presenting “*The Monstrous, The Magnificent, and The Mysterious: Dinosaurs of Western Canada*” at 1:00 pm and 3:00 pm. Dr. Jon Noad will be presenting “*How to find fossils, and what to do when you find them: with examples from around Calgary*” at 2:00 pm and 4:00 pm.

On Monday and Tuesday, 1,146 grade school students and 119 teachers/chaperones from 14 schools, including 5 new ones, have signed up to attend ESfS.

Student and youth groups will be assisted by volunteer guides and teachers/parents and will spend about two hours at the exhibits with scheduled visits to all of the Pavilions. K-12 youth will be given a Scavenger Hunt booklet and answer questions to ensure that they engage in learning and interacting at the booths. The Geo-Theatre is used to brief groups before their guides escort them to the exhibit floor.

All items and materials that must be brought into the facility may be subject to Material Handling Charges and are the responsibility of the Exhibitor.

Arrangements for advance shipping and materials handling can be made by Monday March 9 through Global Convention Services (GCS). Order from GCS. Access their order form for ESfS here:

Exhibitors dismantling their exhibit material before close of show risk not being allowed to return to **ESfS** in the future. All exhibitor materials must be removed from the exhibit facility by Tuesday March 17 at 5:00 pm.

POST SHOW COURIERS

Be sure your courier knows the organization name and booth number when making arrangements for shipping your exhibit at the close of the show.
