You're Invited!

We are pleased to announce that **Earth Science for Society (ESfS)** will be hosting its 14th geoscience exhibition at MacEwan Hall, University of Calgary, on March 14-16, 2027. We would like to invite you and your Youth Group to participate in this great event on Sunday afternoon, March 14th or the evening of Monday, March 15th.

ESfS is a popular event showcasing the importance and impact of Earth Science in our everyday lives and is free and open to the public. Presenters at the four themed pavilions: *Resources and You*, *Energy for Us*, *One Dynamic Earth*, and *Our Future!* give dynamic geoscience-related demonstrations. Visitors are encouraged to engage in hands-on, interactive exhibits, which provide a unique learning experience for them. There are also opportunities to explore many prospective careers.

Your group will have scheduled visits around the pavilions and Geoscience guides will be stationed in each pavilion to help answer any questions. Your visit will start with a briefing and continue with a tour to the pavilions lasting about one and a half hours. If you visit on Sunday, you may choose to include one or both Geo-Theatre talks. These talks are geared towards ages 12+ and info about them is included in the registration form.

Every visitor will receive a printed Scavenger Hunt booklet to encourage interaction with all the exhibitors. The Scavenger Hunt booklets will have two sets of questions; one for older children (grades 5 and over) and one for our younger visitors (grades 4 and under). Group leaders will be sent the questions and answers in advance.

Registration opens on October 1st, 2026.

Please follow the link to register your group: esfscanada.com/school-groups
